NCP ACID STAIN **NATIONAL CONCRETE PRODUCTS**

DOUBLE STRENGTH INORGANIC ACID BASED STAINS

NCP ACID STAIN IS A DEEP PENETRATING PERMANENT CONCENTRATED STAIN THAT IS UV STABLE WHEN SEALED. THIS PRODUCT WILL NOT FADE IN DIRECT SUNLIGHT. IT IS IDEAL FOR INTERIOR OR EXTERIOR APPLICATIONS. CONTAINS NO VOCS.

PRODUCT HIGHLIGHTS

- UV stable: Once dry and sealed, NCP Acid Stain remain stable and resistant to weather and sun light for years.
- A wide range of colors: NCP Acid Stain at various dilutions and combinations can offer a multitude of colors and shades for any desired effect in beautifying plain concrete surfaces.
- Ease of application: NCP Acid Stain do not require any neutralizing or labor intensive scrubbing. Once dry they can simply be rinsed thoroughly and when dry again, apply the sealer. A third of the labor is eliminated.
- Economical: The colors cover 250 Sq. Ft./gal and many can be diluted to provide even more economical coverage.
- Long shelf life: NCP Acid Stain can be stored in the original bottle for up to one year with no loss of activity.

USES

The NCP Acid Stain are applied to any clean, cured concrete surface or concrete overlay surface and allowed to react and dry. Once washed and sealed, the various colors that are applied become a permanent part of the concrete with lasting beauty.

NCP Acid Stain are perfect for interior applications such as garage floors, basements, showrooms and living areas, as well as outdoor applications such as patios, sidewalks, pool decks, driveways and concrete surfaces where mottling and antiquing are wanted.

NCP Acid Stains are permanent because they chemically react with the concrete.

Instructions:

- 1. Clean concrete with Clean & Prep to remove dirt or stains, and any oily deposits. Be sure that the surface is free of any sealants or coatings.
- 2. Apply stain with acid brush, sponge, or plastic sprayer in the color and technique of your choice.
- 3. Allow to dry thoroughly. Drying time will vary according to surface conditions and humidity. Next, wash or damp wipe residue from surface.
- 4. Allow to completely dry again(usually at least 24 hours), and apply sealer to enrich and protect your finished project.

CLEAN UP:

Discard brush or application utensil in an appropriate manner, or clean thoroughly with soap and water.
